

GENERAL MANAGER'S STATUS REPORT

May 9, 2019

Treatment Plants

The treatment plants continue to meet constituent discharge requirements on a routine basis. We did violate some of our daily flows in March. The cause was the large rain events this year.

Collection System

Crews are continuing with regular operations, daily inspections of District lift stations, issuance of correction notices for repairs on private laterals, and inspections on all repairs. Throughout the month, collection staff inspected waterways and the district effluent outfall line after all rain events. Last month the District hydraulically cleaned 7,784 feet of line and CCTV 3,255 feet of line in the Collection System.

Strategic Plan

Master Plan: The District is proceeding with three important steps in getting phase one of the Master Plan implemented.

- Engineering
- Applying to the State Revolving Fund.
- CEQA +

Regulatory Compliance: District is maintaining a >90% compliance currently through the 2019 calendar year...i.e. < 2 SSO's, RWQCB Plant Discharge Requirements.

Customer Service: The District continues to maintain < 1% customer complaints.

Facilities & Infrastructure: The District entered into a MOU with the State on August 23, 2018 to replace the Cleghorn force main and it is scheduled to be started October 2019.

There have been no discharge violations due to Equipment Failure.

Professional Development: All safety protocols are being utilized to promote "Zero Lost Time" due to injuries.

- Ron Scriven and I attended a State water Resources Control Board "Stakeholder Outreach Workshop" The subject is some new regulations for our Sanitary Sewer Management Plan. Improved data quality, enhanced enforceability and planning for system resilience.
- Received a thank you letter form Arrowhead Villas Mutual Service Company for help with tutoring two of their employees.
- Did not get the latest grant from Cal Fire.
